OK Design was founded by the Danish couple: Jacob Fasting and Kirsten Krogh. Jacob began his entrepreneurial life by founding the first bicycle courier company in Mexico City. Later his adventurous spirit led him down a new, creative path together with the architect Kirsten Krogh.

Kirsten and Jacob initiated their success in Europe by introducing the traditional woven furniture from Mexico. Today they create in-house designs as well as work in collaboration with international designers.

Their latest endeavour is Stella Atlántico in Isla de la Palma. A 4 floor building reaching towards the stars and located on the rim of the world's largest erosion crater. Stella Atlántico functions as a combined visual showroom and holiday home.
